

CARGILL KITCHEN SOLUTIONS

ANIMAL WELFARE STATEMENT

Cargill Kitchen Solutions is committed to providing our customers with products raised with respect for the welfare of the animals, the environment, the producer and farm worker, and the communities in which we operate.

- We are committed to providing our customers with high quality options including cage free eggs and eggs produced in housing systems that provide healthy and humane conditions for laying hens.
- We are committed to working with the world's leading animal welfare experts and our egg suppliers to research the most innovative housing systems and standards to ensure that our eggs are produced in a humane and respectful way.
- While we do not own egg-laying hens, our focus is on humane handling and care, proper nutrition, and minimizing distress for all the animals under our suppliers' care.
- We ensure that our suppliers are held to our high standards by conducting independent audits of supplier farms to measure and verify performance.
- We work with scientists, experts, farmers and food companies to seek greater knowledge through the Coalition for a Sustainable Egg Supply (CSES) with the goal of providing safe and affordable eggs, reducing our environmental impact, maximizing farm worker safety, and providing laying hens with healthy and humane housing systems.
